🚨 **FRAUD FACT OF THE DAY!**

Did you know scammers can manipulate caller ID to make it appear that your credit union is calling?

This tactic is known as **spoofing**.

Even if the caller ID looks familiar, never share your online banking password or one-time verification code with someone who calls unexpectedly.

🔐 **When in doubt, hang up and call us directly using our official phone number.**

⏰ **FRAUD FACT OF THE DAY!**

Scammers often create a false sense of urgency to pressure victims into making quick decisions.

Messages like “Your account will be locked in 10 minutes!” or “Transfer your money immediately!” are common warning signs.

🛑 STOP. THINK. VERIFY.

Take a moment to contact your credit union directly before taking action.

📱 **FRAUD FACT OF THE DAY!**

Not every fraud alert is real!

Scammers send fake text messages pretending to be financial institutions. These messages may contain links designed to steal your login credentials or personal information.

🔎 Avoid clicking unexpected links.

🔐 Never enter banking information on an unfamiliar website.

☎️ Contact your credit union through a trusted number if you receive a suspicious alert.

💵 **FRAUD FACT OF THE DAY!**

Did you know that funds from a deposited check may become available before the check is verified as legitimate?

Scammers take advantage of this by sending fraudulent checks and asking victims to return a portion of the money.

⚠️ If a check is returned unpaid, you could be responsible for the funds you've already spent or withdrawn.

Never send money back to someone based solely on a check deposit.
